All sounds good. I've got time tomorrow to connect if you'd like.

I think PAB should maintain the list. We're starting to talk about making some improvements to that office so hopefully this is a task they can do.

This is great. Lots of irons in the fire – for a list of non-profits, the data plan part I have figured out (a questionnaire that automatically populates a searchable Excel spreadsheet (so you could search “EJ groups in Colorado” or “Air Quality Groups in Wyoming.”). I recall showing the basic idea to you at one point.

The issue I need to work with Danny and Mark on is: who is going to maintain it long-term? My first choice is to tap into a contract. My second is MSD. If we don't work that out, it will die on the vine.

Post Janet McCabe visit, we'll figure that out and wrap it up.

FYI,

- Corbin, Jennifer, and I meet with Councilwoman Cde Baca today to strategize on CCND community outreach.
- Montana trip is coming together – a little slower than I would like, but getting there.
- J McCabe briefing book complete (and with her office – I will share with you).
- The trip/engagement planning SOP scheduled for SLT on Monday – *if you have time in the remainder of the week, I'd like to run the final product templates (briefing, debriefing, itinerary) by you* – let me know. But know that all templates are beta-version and can be changed as you use them.

Cheers, David

Hi KC,

Absolutely! Let me make a quick list and I'll send it to you first thing Monday morning.

Thank you for thinking of me/o2 Utah and looking forward to working with you on this,

Hey Eliza. I have a favor to ask.

Region 8 (Co, Ut, Mt, Wy, ND, SD) has been working on a climate adaptation implementation plan and I've asked that the drafter do some outreach to environmental groups. I want to make sure the right people in Utah get sent an email invitation.

Can you pass some names along of who you think might want to review the draft plan and potentially participate in a zoom call to go over it?

Thanks!

Hi KC,

It was great to see you during the EPA Roundtable on March 30th. I just saw a news article on the EPA ruling for Utah's new designation. I'm looking forward to working on these issues with you. Additionally, it was fun to reconnect after working together in Colorado on climate issues.

As Policy Director at o2 Utah, I work on all things transportation, energy, infrastructure and point-source emitters as they relate to air quality. I'm continuing to learn what that means in a new state like Utah but am excited to have a leader like yourself at the EPA to help find avenues for success for Utah.

Looking forward to seeing you again,

Eliza
